

**In the Specification:**

Please amend the paragraph of the specification at pg, 7 line 29 et al. as follows:

The greenhouse may also be provided with a plastic inner shell ~~(23)~~(33) which can be fixed on the rear side (10) of the curved sections (3) and vertical sections (4) by means of clamps (22) consisting of open rings that fit on elongated protuberances (25) defined on the rear side (10), securing the plastic inner shell (33) between the two.
